

SERVICES

SUMMARY

To provide our clients with the greatest value, we perform a selection of specialty services for use in the energy, agriculture, mining, petrochemical, pulp and paper and construction industries. The incorporation of these services into our product offering creates an unrivalled level of integration that can meet and exceed the requirements of any project.

Industrial Coatings

Altus specializes in all types of corrosion prevention solutions. Our facilities are equipped with the portable equipment and manpower to deliver top quality coating services for a variety of uses. We have the knowledge and resources to provide expert sandblasting, painting and internal coating services for field tanks, piping, and vessels for gas plants, refineries and heavy oil plants.

Crane Services

Altus offers a wide selection of products for both short and long term rental. Our selection of cranes is suited to meet the needs of a range of projects spanning a variety of industries including oil and gas, construction, mining and everything in between.

Scaffolding

The Altus Scaffolding Division has over 10 years of experience and has worked for some of the biggest oil and gas producers in Alberta. Our Bonnyville storage yard has a large inventory of equipment with added access to over 5 million dollars worth of the highest quality scaffolding products available. Our team of dedicated professionals delivers complete scaffold resources on every project, big or small, and ensures that all procedures, materials, manpower and project management are in place to ensure the success of every project.
